LABOR CONVENTION HERE ON SATURDAY

A convention of Labor representatives from all parts of the Rocky Mountain provincial riding will be held in Blairmore on Saturday, commencing at 7:30 p.m., for the purpose of selecting a candidate to contest the riding in the forthcoming election.

SILVER FISH MAY MARK WATERTON NATIONAL PARK

The silver buffalo on the radiator of one's car indicates that a visit had been made to Banff National Park. Now an effort is to be made to get a distinctive emblem for Waterton National Park. Heretofore Waterton has been designated by a fish in color, provided as a wind-shield sticker. The sticker is being discouraged by traffic officers and auto associations, so an effort is now being made to have a silver metal fish provided as Waterton's brand—Ex.

HILLCREST BOY WINS SECOND PLACE AT EDMONTON

Word has just been received that Master Joe Jacob has been awarded second prize in the Grade 5, junior, violin contest in the Edmonton festival. He received three silver medals and a cup for violin playing at the Blairmore musical festival, and has brought home a second prize from the Edmonton festival.

W. Moser, Joe's music teacher, deserves credit for the high standard which Joe has reached.

The community is justly proud of Joe's record and look forward to still more brilliant successes for him in the future.

Miss Alice McCulloch, of Calgary, is a guest at the McCulloch ranch, near Lymbrook.

OBSERVE "MADE IN CANADA"

The following resolution passed at the provincial annual meeting of the Provincial Chapter of the Daughters of The Empire and Children of The Empire is being very fittingly observed by local stores this week and many have had their stores and windows decorated with displays of "Made in Canada" and "Made in Alberta" products, with accompanying appeals for support of our own articles.

The resolution reads: "That the Provincial Chapter endorse the British Empire Shopping Week movement and that local chapters ask the authorities in the locality to call a meeting of the organizations interested."

With this object in view, a special meeting of Vimy Chapter was held on Tuesday of this week, at which a committee was appointed to confer with the business enterprises and the public. Stores have therefore decided to place on display with attractive prices, first, goods pertaining to the province of Alberta; second, of the Dominion of Canada; third of the Empire generally.

GARDEN SOCIAL AND SALE

The ladies of St. Anne's Church will hold a garden social and sale of home cooking on the grounds adjoining Mrs. Green's residence, on Wednesday, June 23rd, beginning at 2:30 p.m. Everybody welcome. [m20]17

The Rev. D. K. Allan, of Coleman Institutional church, has received a unanimous call from the congregation of Westlock, Alberta. It is one of the best rural fields in the Edmonton presbytery and offers a splendid opportunity for a minister. Rev. Allan is being congratulated on his preference.

WATERTON PARK DANCE HALL FINEST IN CANADA

Canada's finest dance pavilion is all ready for the season's visitors at the Park. It is estimated that the floor would comfortably accommodate 1000 couples. The construction of the new building attracts particular attention. Stucco and peeled logs on the outside, the interior is one which is so different that one cannot help but be amazed. The tip of the ceiling is forty-two feet from the floor. All around the outside runs a balcony from which to look down upon the dancers. Above this is a maze of peeled and stained logs, regular giants many of them, which support the roof. The whole interior has a rustic air which fits in so well with the atmosphere of the mountains. There is every convenience for the dancers, and when the Denver Dancers open their summer engagement next month there will be a lure for the dancers from one hundred miles about, and a continual source of delight for tourists within the park—Cardston News.

HILLCREST WINS FROM FERNIE

FERNIE, B.C., May 17—Hillcrest completed the double win against Fernie in the Crow's Nest Pass Football league Sunday evening when they won the return game here by a score of three goals to one. Last Saturday at Hillcrest they won by a score of four goals to nil.

The game had just got under way when in a Hillcrest attack Daniels notched the opening counter, getting rather an easy goal. There was no further score in the first half and the teams turned over with Hillcrest leading one goal to nil.

For over thirty minutes the two teams battled in the second half without either side gaining the advantage, although the Fernie goal ran some narrow escapes. A fine run by the Fernie forwards brought about the equalizer, Davidson running up the wing and sending over a fine cross, Sofko got the ball and sent in a hard shot, Lesson got his hands to the ball but Johnson rushed in and before the goalkeeper could effect a clearance breasted the ball into the net. Sawyer was kept busy with Hillcrest going all out to win, and during a strong attack the ball was sent into the goalmouth by Seaman. Sawyer and McVey jumped for the ball, the latter getting his head to the ball and sending it into the net, just as Sawyer tried to fist it away. McVey caught the full force of the goalie's punch straight in the face and was forced to retire for a few minutes. Just before time, McVey and Dugdale got through the defence, Sawyer left his goal and just managed to touch the ball as it was sailing over his head. McVey circled him, beat Blackie in the race for the ball and headed into the net for Hillcrest's third goal.

The lineup:
Hillcrest—Lesson; T. Dugdale and McAndrews; Watson, Bambough and Jepson; Seaman; J. Dugdale, McVey, Daniels and Clark.

Fernie—Sawyer; Blackie and Corrigan; Robertson, Hamer and Slaine; Davidson, Sofko, Johnson, Dicken and Robson.

Mrs. J. S. Stevenson and Vimy left this morning on a brief visit to Calgary.

"PICK OF THE PASS" TO MEET LETHBRIDGE MONDAY

The following team has been chosen from the Crow's Nest Pass to meet Lethbridge on May 24th in a game from which players will be chosen to meet the touring Britishers:

McFarlane, Michel, right half; Bambough, Hillcrest, centre half; Mitchell, Michel, left half; Corlett, Coal Creek, outside right; J. Dugdale, Hillcrest, inside right; McVey, Hillcrest, centre; Sharp, Coleman, inside left; Page, Coleman, outside left.

Lethbridge team—Sawyer, Fernie, goal; McMahon, Vets, right back; Adamson, Brewers, left back; W. Dunlop, Miners, right half; W. Lanning, Vets, centre half; A. Pink, Vets, left half; McLuckie, Miners, outside right; Radley, St. Mary's, inside right; Greatrex, Miners, centre; Carter, St. Mary's, inside left; H. Lanning, Vets, outside left.

For the first time, large losses have been experienced in Alberta from the blight of sheep on alfalfa. During other springs, when the alfalfa has come on more slowly, but little or no loss has been experienced, and many have believed, in spite of repeated warnings, that sheep could be pastured on alfalfa with impunity.

LOCAL BOYS WIN CUP

Houbregs and Rae, of the United Church Tennis Club, Blairmore, won the cup for men's doubles at the Blairmore courts on Wednesday. This playoff had to be postponed from last fall on account of the early snow.

The following are the scores: Houbregs and Rae versus Pruden and R. Pinkney, 6-1, 6-2. Houbregs and Rae versus Barnes and McLeod, 6-2, 6-3. Houbregs and Rae versus Decoux and Thierre, 6-1, 6-0, 6-0. Houbregs was winner of the men's singles championship last fall.

The Corbin Tennis Club will play a league fixture at the United Church courts on Monday, May 24th, beginning at 2 o'clock.

The Resources of an Empire!

For Present and Future Development in the Province of Alberta

DAME NATURE has been kind to the Province of Alberta. No Province of Canada occupies so strong a fundamental position as Alberta, with its great wealth of agricultural and other resources, the development of which has only just begun. Surely then, with so sure a basis for faith and confidence in the future, the people of Alberta need not hesitate to face the problems that arise, nor to join in the shoulder-to-shoulder movement for the intelligent promotion of the development of these great resources. Knowledge of these resources is all that is necessary to create confidence. It is for this reason that this newspaper presents below a brief review of Alberta's wealth and possibilities.

20 Years of Progress in Alberta

	1900	1925
TOTAL VALUE AGRICULTURAL PRODUCTS	\$20,000,000	\$256,000,000
WHEAT PRODUCTION	3,000,000 Bus.	103,000,000 Bus.
DAIRY PRODUCTS, VALUE	\$ 1,000,000	\$ 23,000,000
COAL PRODUCTION	934,000 Tons	5,800,000 Tons
MILES OF RAILWAY	1,000 Miles	4,800 Miles
POPULATION	200,000	640,000

AREA—254,000 square miles, twice as large as the British Isles, larger than France or Germany. Population 2.3 to the square mile, compared with 389 per square mile in the British Isles, 184 in France and 328 in Germany.

AGRICULTURAL LANDS—More than 60,000,000 acres of fertile lands capable of cultivation still untouched.

FREE HOMESTEADS—More than 15,000,000 acres of land still open for free entry.

IRRIGATION LANDS—One million acres new under irrigation, three million more capable of irrigation.

COAL—Largest coal resources of any similar area in the world. Alberta has 14 per cent. of the world's coal reserves; 72 per cent. of the British empire coal reserves and 87 per cent. of Canada's reserves.

NATURAL GAS—Four large fields now operating, supplying four cities and several towns with gas fuel.

OIL—Two producing fields, one containing the richest producing oil well in the world, bringing in 15,000 barrels monthly of almost pure naphtha, in the Turner Valley. In the Wainwright field wells producing 80 to 150 barrels a day crude petroleum, other wells promising. Other fields being developed.

TIMBER—60,000 square miles of merchantable timber, including 270,000,000 cords of pulpwood.

TAR SANDS—15,000 square miles of rich tar sands, suitable for paving material or oil extraction.

OTHER MINERALS—Include salt, bentonite, clay for ceramics, building stone, etc.

WATER POWER—Utilized and available estimated at 1,750,000 horse power.

FISHERIES—Extensive commercial fish possibilities. Annual production valued at \$400,000.

FURS AND GAME—Annual value furs and game over \$2,000,000.

TOURIST ATTRACTIONS—Three big mountain parks, including some of the most famous mountain resorts and scenery in the world.

This page is published by this newspaper as part of a united effort by the Alberta Press Association to place before the people of Alberta the strong fundamental position of this province, her progress to date, and the great possibilities for the future.

A PER CAPITA SURVEY OF PROVINCIAL TAXATION

The province of Alberta raises and spends about eleven and a half million dollars every year. That is a lot of money, so much that the ordinary individual, whose total budget amounts to from two to ten thousand dollars, finds it difficult, if not impossible, to visualize the amount.

Not will he receive much assistance from the various orators of all shades of politics, who will during the next two months, criticize or commend the expenditure.

Amounts in the millions, tossed from the lips of political speakers into the ears of their audiences, cannot convey any real idea of the cost of government, but the ordinary individual can form some idea of the cost when it is reduced to a per capita basis.

The estimated income of the province for 1926 is \$11,899,852. The estimated population is 630,000. Dividing the income by the population, we arrive at a per capita income of approximately \$18.56.

None of this money (with the exception of the supplementary revenue tax) is received by general direct taxation. The greater part of it is paid in return for services rendered, as in transportation, education, law administration, health, etc.

The principal receipts per capita are as follows:

Domestic subsidy in lieu of natural resources, school lands, etc., \$3.05; liquor act (sales and licenses, etc.), \$2.74; land titles; mothers' allowance refunds, succession duties, fines, etc., \$2.14; supplementary revenue tax, \$2.09; wild lands tax, 79 cents; educational tax, 26 cents; amusement tax, 26 cents; corporation tax, 81 cents; railway mileage tax, 50 cents; gasoline tax, 56 cents; auto licenses, \$1.10; agricultural (game licenses, fur tax, brand horse, etc.), 55 cents; public health (patients fees, etc.), 40 cents; interest, etc., 62 cents.

These are the principal receipts, totalling \$18.57. The balance of the \$18.56 is made up of a number of minor items. The average ratepayer can figure from the above what he actually pays to the provincial treasury.

The estimated expenditure for 1926 is \$11,877,862.93. This divided by 630,000 population gives an estimated expenditure of \$18.54 per head. Below are the principal items:

Public debt (interest, on railways, irrigation, drainage, buildings, provision for sinking fund, etc.), \$6.48; executive council (1926 election, superannuation fund, inspection of mines, scientific research, etc.), 58 cents; expenses of assembly (including members' allowances 17 cents), 28 cents; agricultural (grants to fairs, educational, prevention of pests, promotional, etc.) 95 cents; administration of justice, courts, land titles office, protection of children, etc., \$1.23; Alberta provincial police, 40 cents; education (school grants \$1.50, university 67 cents, technical, normal, examinations, inspection, blind and deaf children, etc.) \$3.96; public health (hospital grants, administration, clinics, operations of mental institutions and training schools), \$1.46; public works (highways, market roads, bridges, ferries, upkeep public buildings, etc.), \$2.18.

The above sums represent \$17.57 out of the total of \$18.54.

The figures should give the ratepayer a bird's-eye view of the revenues and expenditures of the province.

It will be seen that by far the greatest item is public debt. This is very largely due to the railways guaranteed by the province between 1910 and 1915 not paying their way, with the result that the province has to pay the interest. The Lethbridge Northern Irrigation system also accounts for a considerable sum in defaulted interest. We are suffering now for the over-optimism of past governments, who assumed a liability which was properly that of the Dominion government or of the transcontinental railways.

The province signed on the dotted line, and cannot avoid paying the interest now, though every endeavor is being made to turn the burden over to the Dominion or the railways, at the same time protecting the province's interest of approximately \$35,000,000 in the railways. Then as regards health, education, agriculture, justice, etc., where are we to cut. We cannot have these things without paying for them.

Capital expenditure has not been death with here, but will be taken up in our next issue.

THE U.F.A. PLANS FOR CAMPAIGN

The United Farmers of Alberta have circulated all their locals announcing a membership drive, to commence May 25th, and to be completed at the earliest possible date. Their object is to have every farmer in Alberta a member of the organization. Objection is said to be made by some farmers to the U.F.A. taking part in politics, but those who feel that way should join, as the policy of the U.F.A. has always been determined by the majority of its members.

The U.F.A. has decided as an organization to take direct political action. They are convinced that the results attained by the present U.F.A. government during its five years of office show a great improvement over

the previous system of government. U.F.A. secretaries are asked to get busy at once and call meetings of their locals to organize the membership drive. Women are welcome as members of the U.F.A. as well as of the U.F.W.A. Those in sympathy with the U.F.A., though not actively engaged in farming, are eligible for membership. All applications for membership are voted on by the locals.

NEW COMMISSION APPOINTED

Dr. David George McQueen, of Edmonton; Stanley H. McCuaig, of Edmonton; Hugh J. Montgomery, of Wetaskiwin; the Reverend Aubrey S. Tuttle, of Edmonton; J. E. A. McLeod, of Calgary, and Charles E. Wilson, of Edmonton, have been appointed commissioners to investigate any cases in which difficulties, differences of opinion, or hardships are alleged to have arisen as affecting such minorities, either of the United Church of Canada, or the Presbyterian Church in Canada, the Methodist Church or the Congregational Churches, particularly with reference to places of worship, property, and financial conditions generally, and to endeavor by advice and counsel to bring about a conciliation between any disputing parties, and an amicable settlement of all questions in difference or dispute, and to report the result of any such investigation with any recommendation to His Honor the Lieutenant-Governor in Council.

The following is from an English paper: "Dear Teacher, will you please excuse Mary for not being at school yesterday. She fell in the pond and had to take all her clothes off. By doing the same you will greatly oblige. Her Mother."

Blairmore Tuxis baseball team was defeated on the local grounds on Friday evening last by Pincher Creek, the score being two to one, which fairly represents the play. A return game will take place at Pincher Creek on Friday of next week.

LOUGHEED ESTATE

The will of the late Senator Sir James Lougheed has been submitted to probate. There was considerable delay in valuing the estate owing to the character of the assets, consisting principally of Calgary real estate. In the application for probate the estate is valued at approximately one and a half million dollars, the principal items being the Lougheed building and Grand theatre, the Clarence and Norman blocks, the Edgar and Douglas blocks, the latter being the old Mewburn building on Eighth avenue and Third street west, the Calgary public market on Seventh avenue, and the Universal Motors on Ninth avenue.

The income of the estate is divided among the children of the testator, Clarence, Norman, Edgar, Dorothy and Douglas, and Lady Lougheed, the latter having in addition the use of the family residence for life.

A distribution of the estate will not be made until after the death of the immediate heirs.

The executors applying for probate are Clarence H. Lougheed, Edgar D. Lougheed and Edmund Taylor. Lougheed & Taylor, Limited, have been designated in the will as managers of the estate.

MR. MOSER'S PUPILS WIN IN EDMONTON FESTIVAL

Mr. Moser accompanied two of his pupils, Miss Verduin Leigh, aged 9, of Cowley, and Joe Jasbec, aged 10, of Hillcrest, to Edmonton, where they played in the musical festival. They were accompanied to Edmonton by Mrs. Leigh and as far as Calgary by Mrs. Grove, who was called home by the illness of her husband. The young musicians were thus deprived of the accustomed help of Mrs. Grove, their accompanist, but despite this fact, little Miss Verduin Leigh won second in her class with 181 marks.

Our Edmonton boy, Ralph Mofetall, winning first with 183 marks. Mr. Moser's other pupil, Joe Jasbec, of Hillcrest, also won second, with 166 marks; Olive Brosseau, of Edmonton, won first with 167.

Needless to say, we of the South are taking a justifiable pride in our musicians, and extend hearty congratulations.

DISTRICT FIRST AID COMPETITIONS

The district First Aid competitions will be held at Coleman on July the first, on the sports grounds, if weather is favorable; if not, in the arena.

There is every indication of a most successful competition. Due to the most generous co-operation of those persons interested in First Aid work in the district, up to date eight senior and seven junior teams have entered. In addition to the three grand prizes to be awarded to the first, second and third successful teams, prizes will be awarded in the junior competition.

There will also be a dinner, and at night, at the close of the competition, a grand banquet for all competitors, officers, executive committee, and others of the district association. The prizes will be presented at night in the arena.

Roddy McDonald, well known boxer, formerly of Halifax, N.S., is training at Nacmnie, Alberta, in preparation for a series of bouts which he will participate in this summer. He is anxious to oppose any middle-weight or light-heavyweight in western Canada. McDonald has a splendid record. He had two bouts with Mike McTigue and holds two decisions over Johnny Wilson. John V. Young, of Nacmnie, is looking after McDonald's interests.

THE MAN WHO PAYS

The will to pay is hereditary, just as much as red hair or buck teeth. It is a common fallacy that a man pays his debts because he has money. This is not true. On the contrary, the matter of paying has only a remote relation to money.

On the one hand is your friend with abundance of money, who cannot be cajoled, threatened, beaten or gassed into paying the most ordinary debt.

On the other hand, the poor fellow without a visible dollar—you know him—who is Johnny on the invoice. Money has little to do with either case. It is the breed of the man.

The man who pays is the man who thinks in advance. He never flashes a roll; he does not drive a car and he does not hang up the butcher or the grocer for food that he cannot afford to eat; he never lights the fire without wondering where the coal man gets off. He never throws the Bull, nor pitches the Bluff, nor gives notes, nor writes cheques dated to-morrow, but when the bills come in, he is there with the coin of the realm. God bless him.

Sometimes he feels sore at the rest of us. He does not see that he gets on any better than the fellow who skins as he goes. Still he goes on, pays and pays, simply because it is in the breed.

And after all, the world does think a lot of his breed. The man who pays is the bulwark of society. He is the paunching of commerce. Business means him and he has honor among men for all time.

The Calgary Herald points out editorially "What Show Might Have Been." That's not the question as far as Mr. Shaw is concerned. It's "What Mr. Shaw is Going to Be."—Ex.

James "Dunlop" Coats, one of the most popular drummers on this territory, was in the district for a few days during the week and incidentally "rubbered" around our shoes and times.

Miss Madeleine Chardout, who is completing her course in normal study and music in Calgary, will return to Blairmore shortly, and we understand will take up teaching in June.

A slight fire occurred in the machine room of the Orpheum Theatre last night while the show was on. A number of films were destroyed. The fire department were on the scene promptly.

About the biggest joke of the present day is the declaration made the other day by a couple of United States senators that New York had the most efficient police system in the world.

The announcement is made that Miss Annie Nosek, former waitress at the Cosmopolitan hotel here, whose home is at Elk Prairie, is shortly to be united in marriage to a High River bank clerk.

The estate of the late W. L. Oulmette, at Coleman, is soon to be wound up and at present a mammoth sale is being held at their store, in the hope of considerably reducing the stock of merchandise.

ACTION IN SUPREME COURT FOR \$3000 CLAIMS

At the sittings of the Supreme Court at Macleod on Monday, an action at the instance of Mrs. Margaret Deering, of Bellevue, against the estate of the late Robert Connolly, of Bellevue, was tried before the Hon. Mr. Justice Ives, the presiding judge. Mrs. Deering claimed that, in the spring of 1909 she had been hired, by the late Mr. Connolly to work for him at his residence at Bellevue, and that she had remained with him from that time until his death on June 26, 1924. She alleged that in return for her services she was to have the use of certain cattle and whatever she could make by keeping boarders, but that Mr. Connolly later disposed of the cattle and that he never paid her anything for her services until 1919, from which time he furnished groceries to the value of \$20 per month, also water and coal. She had at various times expressed her intention of leaving his service and taking a position as housekeeper elsewhere, but Mr. Connolly had induced her to remain on the representation that he would see that she was well repaid for her services, and she claimed from his estate \$50 per month for the 6 years preceding his death, amounting to \$3000. Corroborative evidence was also led on her behalf, from which it appeared Mr. Connolly had told various persons that he intended to build a new house and that he was to give a deed of it to Mrs. Deering. By a codicil to his will, Mr. Connolly gave to Mrs. Deering the life-estate of the house he resided in at Bellevue and about three-quarters of an acre of land on which it stood, the fee of the property to go to Clifford C. Miller, her son, at her decease.

Thomson & Jackson, counsel on behalf of the Connolly estate, denied that there was any contract of hiring between the parties, and maintained that Mr. Connolly had paid Mrs. Deering for his board. His Lordship found that there had never been any contract of hiring between the parties, and that therefore any promise Mr. Connolly had made to Mrs. Deering that he would give her the deed to the new house he was to erect, or compensate her for staying on with him could not be enforced, and he therefore dismissed the action with costs against Mrs. Deering. Messrs. Ostlund & Brown, of Lethbridge, acted as solicitors and counsel for Mrs. Deering, and Thomson & Jackson, of Pincher Creek, acted as solicitors and counsel for the Connolly estate—Pincher Creek Echo.

TO DEFEAT RECIPROCITY

Addressing the Toronto Conservative Business Men's Club recently, Hon. R. B. Bennett, M.P. for Calgary, gave an answer to those politicians who still bewail the defeat of reciprocity in 1911. Luncheon was served, followed by several hours of dancing, music being supplied by Mason's orchestra.

One can gather an idea of the magnitude of the Crows' Nest Pass musical festival, recently held, when we compare figures with those of the provincial musical festival held at Edmonton. The Alberta festival had 312 entries in the various classes from all parts of the province. The Crows' Nest Pass festival had close to 500 from a district of about sixty square miles and a population of about ten thousand people.

A despatch from Springhill says that Kent Foster, former treasurer of Springhill local U.M.W. of A., and prominent in Nova Scotia labor circles as an international officer, was killed Monday morning in a coal mine at Coleman, Alberta. Mr. Foster leaves a wife and nine children. He was well known in Pictou County and had many friends who will deeply regret to learn of his untimely passing. A comparatively young man, death came to him with great suddenness.—New Glasgow Free Lance.

The bootlegger is generally regarded as a depraved character without any standing in the community, but really how much better is the smuggler, and yet, as Hon. George Graham declared the other day, thousands of respectable and even church-going people do not hesitate when returning home from abroad or from across the line to stow away about their persons goods that can be easily concealed and on which they can effect a considerable saving by purchasing beyond the confines of Canada. Their act deprives the country just as effectually of revenues that rightly belong to it as does that of the bootlegger of illicit brands of liquor.—Beausville Express.

The suit by the Home Bank Liquidators to recover \$2147.47 from Jas. Lancaster was argued at Fernie last week, but decision was reserved. This case arose out of the Home Bank failure and some very fine points of law developed. Lancaster had borrowed from the Home Bank this money in July, 1923, and had given the bank an assignment against an amount of money due him by the Great Northern Railway. In August of the same year the bank failed and at that time the Great Northern Railway had on deposit in the Fernie branch of the bank some \$2800. The Great Northern claimed that the deposit should be used to pay the assignment on money due to Lancaster, but the Home Bank liquidators refused to accept this proposal and are suing Lancaster to secure the full amount of the claim.

COWLEY HAPPENINGS

Griffith in the splendid program put on by the children under their supervision. The congregation was one of the largest in many years. The services were pleasing in the extreme and will long be remembered.

FIRST AID PRIZE DRAW

The first draw for the benefit of the Crows' Nest Pass First Aid Association will take place in public at a banquet to be given at Bellevue by the Bellevue local association on or about May the 25th.

At the same time the First Aid certificates, issued by the St. John Ambulance Association, and the Industrial Service First Aid Association certificate, issued by the Workmen's Compensation Board of Alberta, will be presented to the successful candidates of this year's Bellevue and Blairmore First Aid Classes.

This will close the most successful winter's First Aid Classes in this part of the Pass, classes having been held at Hillcrest, Bellevue, Blairmore and Coleman, a total of 135 men and boys having passed for certificates.

Britain Not Bolshevistic

One of the most remarkable, and at the same time most satisfactory, features of the great strike in Great Britain is the way in which the people kept their temper and passion under control. With millions of men on strike, and many millions more dependent on them for support, and all feeling more or less bitter against the Government and those throughout the country opposed to the strike, it is little short of the miraculous that rioting and indulgence in excesses of all kinds was not general.

Then, too, the strike imposed discomforts, inconvenience, and in some cases even hardship on every citizen. Had soft tempers and the voicing of bitter complaints and the development of bitterness of all kinds been the rule it would not have been surprising. It would have been expected in almost any country. But despite any and all provocation, the people of Britain kept their heads, remaining, with few exceptions, calm and unruffled.

It speaks volumes for the sturdy character of the British people, and their inherent loyalty, that they have thus "played the game." Grim and determined as both sides to the dispute proved themselves to be they were battle for a principle, and the strikers in more ways than one proved the truth of their assertion that they were not fighting Britain, but for what they conceived to be the highest and truest interests of the country. British labor in this struggle—the greatest in the history of the country—demonstrated that it is not Communistic nor Bolshevistic.

The "Reds" in Russia welcomed the British strike with unfeigned joy. For years they have been striving to convert the British worker to communism. They have desired the overthrow of the present form of government, and have conspired and intrigued to bring about a Soviet republic in Britain. The "Moscow Reds" thought success was in sight and promptly offered millions of rubles to assist the British strikers. The money was just as promptly declined by the British labor leaders. British labor had an issue to fight out with the Government, but they had no desire nor intention of destroying the Government. The strike will have served all those valuable purposes in thus proving to the world the inherent loyalty and soundness of the rank and file of British people.

Undoubtedly the British Government and the overwhelming majority of the people are in full sympathy with the desire of the strikers for the creation of the best possible working conditions, hours of labor and pay. There is no difference of opinion as to the desirability and necessity of solving the coal-mining problem in the British Isles. Where the Government and the majority took issue with the strikers was in the method adopted by the latter to enforce their own views and opinions upon the country, namely, through a general strike to deprive all people of the conveniences and necessities of life and thus force them into submission.

If there is one national characteristic of the British race it is their love of freedom and fair play. They will not be forced, nor bow to dictation. And the strikers made an irreparable blunder when they sought by depriving all the people of means of transportation and other essential services to force compliance with their own wishes. It is not "fair play" to impose discomfort, loss and suffering upon innocent millions of people in order to "get at" those in authority with whom the strikers have a quarrel. The method employed by German military methods inflicted upon innocent Belgium in order to strike a blow at France.

Furthermore, while people generally are anxious that all necessary reforms in the coal industry shall be effected as quickly as possible, they resent and reject the assumption upon which the strike was based that it was necessary to take them by the throat and force their own submission. Methods which may appeal in Soviet Russia are not acceptable to the liberty-loving Anglo-Saxon. This was well established in the One Big Union strike in Winnipeg a few years ago. It has again been proven on a much larger scale in the British general strike. The British workers proved their loyalty to Britain by refusing Soviet money, and by their declaration that they were engaged in a purely domestic struggle which in no way involved their national honor. But they made a mistake in adopting Soviet strong arm methods in waging their domestic battle.

The result of the struggle is to establish that the British people, including the great mass of British Union labor, are in no danger of accepting the ill-digested theories and quick remedies of Bolshevistic Russia and communistic demagogues throughout the world.

Cancer Takes Heavy Toll

Death Rate From This Disease Said To Be Increasing

The increase in deaths from cancer in Ontario and the rest of the Dominion has been alarming, the committee of cancer reported to the Ontario Health Officers' Association.

"Not only have the total number of deaths from cancer in Ontario increased generally, but the rate per hundred thousand of population and the percentage of cancer to deaths, all over the continent, has increased alarmingly," the report said.

Treasure Hunt Was Profitable

Fort William Boy Found Jewelry Valued At \$1,000

Darted treasure brought reward and prominence to Harvey Shable, an 11-year-old Fort William boy. Starting a treasure hunt near his home, Harvey unearthed jewelry valued at \$1,000 and immediately turned it over to the police. He found it under a sidewalk near his home. The treasure was identified as part of the loot taken in a \$2,000 robbery there. The robbers were never apprehended.

Making Use Of Geysers

Town in Iceland Uses Water To Heat Houses

The wonderful geysers of Reykjavik, in Iceland, are now being used to heat the town and to warm and water greenhouses and gardens.

Water from the geysers is forced through narrow pipes laid at a depth of about three feet in the soil, and the warm water favors and hastens the growth of both vegetables and fruits.

Near the largest geyser a very large greenhouse has been built, where all kinds of flowers and vegetables are being cultivated with extraordinary success. It is possible, indeed, that with the assistance of its geysers Iceland will be able to compete with the Channel Islands as a purveyor of early potatoes and flowers.

Find Large Munition Dump

Concealed Behind False Wall Escaped First Search By Dublin Police

A munition dump, one of the largest ever found, was recently discovered by Dublin detectives behind a false wall in a stable in King Street, Dublin. It contained nearly 300 live bombs, 5,000 rounds of rifle ammunition, 10,000 detonators, and two tons of high explosives, including cordite and gelignite.

Many spare parts for bombs and a quantity of machinery were also found. Some of the boards of the wall were removed, revealing a secret chamber twenty feet long stocked with war material. The stable, which belongs to one of the city's prisoners who escaped from Mountjoy Prison about four months ago, had been searched recently by the police, who found nothing.

NERVINE

A Home Necessity

Speaking of valuable home remedies that every mother should always keep on hand, Nurse Carrington says: "I haven't met any preparation more dependable than 'Nervine.' It is the ideal liniment; every drop rubs in—it is absorbed quickly; eases and relieves congestion in a short time. For chest colds, pain in the side, stiff neck, earache and toothache, I have found Nervine invaluable. In treating the minor ills that arise in every home, Nervine is more efficient than anything else."

For nearly fifty years Nervine has been a household article in thousands of Canadian homes. Get a 25c bottle today.

ISAAC AND HIS WELLS

Golden Text: A soft answer turneth away wrath: But a grievous word stirreth up anger. Proverbs 15:1.

Lesson: Genesis 26:16-25.

Devotional Reading: Matthew 6:1-12.

Explanations and Comments

Isaac's Prosperity and Its Result, verses 13-17.—A hundredfold was the yield which Isaac obtained from his sowing, and so great were his possessions in flocks and herds, and so great was his household, that the Philistines envied him.

"There is envy in the hearts of us all," you, professional man, have you never envied that other professional man who has a greater reputation than you? You, preacher, have you never envied your brother preacher who has larger congregations, and more able to color in most or silk, or whether it is linen, cotton or mixed goods?

It used to be a mark of a gentleman that he would instantly resent an encroachment on his rights, and pick a quarrel at a moment's notice. To-day, that would be a mark of ill-breeding. Where education and Christian culture have done their fullest work, there is most patience and gentleness.

Poison Becoming Cheaper

Calcium Arsenate Or Arsenate Of Lime Is An Economical Insecticide

The old buggy served its day and served it well, but times have changed. The car is now the popular means of conveyance. Paris green was the old-fashioned poison for potato beetles and sundry other leaf-eating insects, but its day of economical service is fast passing. According to Professor A. V. Miller, entomology department, Manitoba Agricultural College, a newer and much cheaper poison for insects has made its appearance upon our markets and should be much more widely known than it is at present. This is Nervine. Nervine is calcium arsenate or arsenate of lime. It is much cheaper than Paris green, shows up on the foliage better since it is white, and will not burn the foliage when applied either dry or in water.

Paris green, calcium arsenate or arsenate of lime has dropped this year and this fact should make this insecticide more popular with both growers and dealers. Wholesale houses carry it and will be pleased to quote prices to local dealers. Unless the local dealer orders now he is not likely to have any upon his shelves when it is wanted. A word in time to the local dealer may save the grower dollars.

Worms are encouraged by morbid conditions of the stomach and bowels, and so sublet. Miller's Worm Powder will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

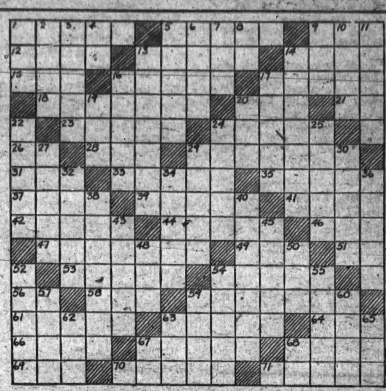

District Welcomes Increased Service The increased train service between Saskatoon and Edmonton, via North Battleford and Lloydminster, which took effect on May 10, will be a great convenience to the people living in that territory, according to transportation officials of the Canadian National Railway. This district has been served for a number of years by a night service only, whereas now there is a double service, trains leaving Edmonton and Saskatoon in the morning, making connections for the east and west.

GIVE CONFIDENCE TO YOUNG MOTHERS

By Always Keeping Baby's Own Tablets in the Home
A simple and safe remedy for the common ills of babyhood and children should be kept in every home where there is either a baby or a young child. Often it is necessary to give the child something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth. Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that seize their little ones so suddenly and the young mother can feel reasonably safe with a box of these Tablets at hand and ready for emergencies.

Heavy Sentence For Aged Spy

Seventy-Year-Old Blind Woman Convicted in Russia
Anna Yegorovna, a blind woman, known as the grandmother of the Czarist provocateur, seventy years of age and blind, will spend the next seven years, if she lives, in solitary confinement. She was convicted by a revolutionary tribunal and sentenced to death, but because of her age and infirmity the court commuted the penalty.

The woman had been for twenty-five years the secret agent of the Paris police and during that time it was charged that she had betrayed many prominent socialist revolutionists and nihilists, among them Anatole Lunacharsky, now Soviet commissar of education. For years she enjoyed the confidence of the leaders of the revolutionary movement. She resided in Moscow, where she maintained an elegant salon, much frequented by the Bolsheviks.

Gave Farmer His Title

Prince Greeted South African Who Claimed Relationship in Joke
"Hello, father," said the Prince of Wales to a South African farmer whom he met at a public dinner. The Prince had been out in running shorts the previous day, when, feeling thirsty, he called at a farmhouse and asked for a drink of water. The farmer, who was unaware of his identity, gave him the drink and asked him his name. "I'm the Prince of Wales," said the Prince. The farmer laughed. "Well, if you're the Prince," he said, "I'm the King of England."

NEEDS A SPIRIT OF CONCILIATION TO SETTLE STRIKE

London.—Avoidance of vindictiveness and a conciliatory spirit in settling the greatest industrial conflict ever known in the United Kingdom was urged by Premier Baldwin in the House of Commons, when the subject of the general strike was up for debate. At the same time he pointed out the extreme difficulty of reconciling the government's pledges that no harm would come to the volunteers who had aided the nation in the crisis with the need of reinstating every strike.

Stanley MacDonald, former Labor premier, in opening the debate, deplored the fact that bitterness had been infused into the relations between employers and the mass. He earnestly appealed for efforts so that advantage could be taken of the present position to establish good relations on a broader and a firmer foundation than existed before. "He hoped it was the desire of parliament primarily to declare to the whole nation that it wanted no crushing or humiliating, and that it lifted its voice in behalf of healing, restoration and restitution."

Premier Baldwin compared the situation with that after the Great War when the problems of the first few months were far more difficult than those they had to face during the war. The problem to be threshed out after the war was the relations between the trades unions and employers' associations of reinstating the men, while doing no injustice to the men who helped the nation in its time of need, called for real statesmanship. He urged that the very present dislocation of the country's trade alone required that there should be no bitterness or delay in getting the industries started again.

"There are some who like fishing in troubled waters," he said. "Let us get the waters calm as soon as we can, for the work of half a century be spoiled."

The premier said that the wrongs and friction must exist temporarily, but there could be no greater disaster than aarchy in the transportation world. The government had no power to give orders or to coerce the employers, but the government's whole influence was being exercised to keep the letter and the spirit of what had been broadcast during the past few days.

J. H. Thomas, the chief labor leader in the strike, like Mr. MacDonald, strongly protested the attitude of the British Gazette, the government's official newspaper, which used as the caption of its announcement of the calling off of the strike, "Total Surrender."

"Imagine the bitterness of that," Mr. Thomas exclaimed, "to two millions of men who had refused to surrender to the Germans."

The labor leader, detailing many cases of employers relating to reinstatement of the men, except under penalizing terms, begged the employers in the house and elsewhere to give effect to the premier's broadcast speech, which showed "a magnificent spirit."

Discussing Plans To Secure Alberta Coal

Committee Will Adv. \$7.00 Rate On Shipments For East

Toronto.—Mayor Thomas Foster has announced that he would summon the Alberta coal committee, composed of representatives of various Ontario municipalities, in order to discuss plans to secure a supply of Alberta coal. Mayor Foster expects that Premier J. E. Brownlee of Alberta will join with the members of the committee in making representations to Ottawa for a temporary rate of \$7 a ton for this year and that the experiment will prove so successful that the railways will be willing to continue the rate.

Would Stabilize French Credit

Prominent Montreal Man Start "Bave the Franc" Fund

Montreal.—"A Bave the Franc" fund in Canada in aid of the French financial situation has been started in Montreal. A prominent committee, headed by Sir Louis Goulet, former premier of Quebec and former federal minister of justice, has been formed. The appeal is being made on the basis of gratitude to France for her heroic efforts and on the practical ground that stabilization of French credit will result to the business advantage of this country. School children will be appealed to for very small contributions and it has been suggested that employers take up modest subscription lists from employees willing to donate.

When complete, the money will be dispatched to M. Joffre as head of the main fund in France.

Crop Conditions In Europe Excellent

Are Making Seasonable Progress Says Report From Rome

Ottawa.—According to a cablegram received by the department of agriculture from the International Agriculture, Rome, the condition of winter cereals in Europe is excellent. Crop conditions are good in Italy, and fairly good in Belgium. In Poland conditions are a little above the average. In Hungary the weather has been favorable and the crops are making excellent progress. Conditions have been normal in Roumania, and spring sowing was almost completed at the end of April. There have been some complaints of rust in France, and crop conditions are not so good in that country as they were at this time last year.

Manitoba Bird Sanctuary

Provincial Government Sets Apart 2,600 Acres at Portage la Prairie

Portage la Prairie, Man.—The Provincial government has recognized the advisability of establishing a bird sanctuary at this point and for which due confirmation was received from the lieutenant-governor. The territory will embrace upwards of 2,600 acres, 600 of which will be water and will be marked out by the Kiwanis Club of this city.

New Flag For South Africa

Over 3,000 Designs Submitted to Committee For Selection

Cape Town, South Africa.—The Hon. Government has described a design for a new flag for the Union of South Africa. The design for the flag shows a vertical red bar next the staff and horizontal bars in green, yellow and blue.

The Union Jack will be flown in addition to the new flag and in state occasions.

Early in the year a commission representative of all parties in South Africa was appointed to select a flag for the Union of South Africa. This step was the outcome of a friendly arrangement between Gen. J. B. Hertzog, premier and nationalist leader, and Gen. Jan Christiaan Smuts, former premier and leader of the South African party in the House of Assembly.

Over 3,000 designs for the new flag were submitted to the commission.

Butter From Antipodes

Subsidized Australian Butter Is Subject To Dumping Duty

Ottawa.—Australian butter and canned fruits, subsidized for export, are subject to a dumping duty in Canada equivalent to the amount of the subsidy. This announcement was made in the House of Commons.

Hon. George H. Boulton, minister of customs, said that the government was informed that what is known as the Patterson scheme came into effect in Australia on January 1st. It imposes a tax of three halfpence a pound on all butter produced in that country, and out of the funds thus provided a bonus of three pence a pound was paid on butter exported from the Commonwealth.

SQUARE DEAL TO ALL PROMISED BY BRITISH PREMIER

London.—It was made clear by Premier Baldwin during the conference with the Trades Union Congress leaders in Downing Street, that it was his purpose to stand by the terms of his statement in which he promised a square deal for all.

The prime minister was questioned by Ernest Bevin, the dockers' leader, as to whether he was prepared, as head of the government, to make a formal request that ready facilities for the reinstatement of the strikers would be given and whether all negotiators were to be carried on while the miners were still out.

"You know my record," Premier Baldwin replied. "You know the object of my policy, and I think you can trust me to consider what has been said with a view of seeing how best we can get the country quickly back into the condition in which we all want to see it."

"You will want my co-operation, and I shall want you to try to make good the damage done to trade, and try and make this country a little better and a little happier place than it has been in recent years. That will be my steady endeavor, and I look to all of you, when we are through with this, for your co-operation in that. I shall do my part and I have no doubt you will do yours."

"In regard to the second point, I cannot say at this moment what will happen, because I shall have to see the parties. My object, of course, is to get the unions started at the first moment possible and get an agreement reached. I cannot say until I have seen them exactly what the lines will be upon which my object can best be obtained. But you may rely on me and rely on my cabinet that they will see no stone left unturned to accomplish that end."

Indian Woman Trapper Dead

Port Arthur, Ont.—Nancy Plummer, Indian woman, born in the Long Lac district six years before Confederation, is dead. She followed the occupation of trapper and traded furs with the Hudson's Bay Company when she was a young girl. Her father, John Waynes, was chief of an Indian tribe in the Moose Factory territory for years.

The bill is not expected to pass at this session of congress, the vote is prepared to debate it at length, offering as amendments their modification proposals.

The bill provides among other things, penalties of imprisonment for five years or \$10,000 fine, or both, in cases of conviction for serving denatured alcohol to unlawful use; severe penalties for counterfeiting permits or physicians' prescriptions for liquor; seizure of all vessels on the high seas undertaking to smuggle liquor into this country except that foreign vessels must be seized in accordance with treaty stipulations; search of United States craft by the coastguard at any place on the high seas; and search of dwellings on evidence of commercial distilling.

Carpenters Resume Work

Ten-day Strike in Vancouver Has Been Settled

Vancouver.—Work on several large buildings under construction in the downtown section of Vancouver, suspended for ten days by a carpenter strike, has been resumed following settlement of the dispute at a series of conferences between representatives of the strikers and general contractors' association.

Settlement includes continuation of the five and a half day week which the carpenters had sought to have reduced to five days, until May 1, 1927, and an increase of 50 cents per day to commence immediately. The new rates of pay for carpenters will be \$7.50 per day.

Urges People To Co-operate

King George Has Issued Appeal For National Peace

London.—King George issued an appeal to the people of Great Britain to co-operate in the task of bringing peace to the nation.

"Let us forget whatever elements of bitterness the events of the past few days have created," he said.

The King begged his people to remember how steady and how orderly the country had been through the country's industrial crisis and asked them to address themselves to bringing into being a lasting peace.

Prepare For Moving Bumper Grain Crop

Conference of Commissioners in Montreal

Montreal.—The board of grain commissioners for Canada have been in Montreal conferring with the board of trade, the harbor commissioners and other interested parties in regard to the movement of this year's grain harvest. The events of the past few days have created, he said, one, according to Leslie H. Boyd, chairman of the board. The opinion is generally held that increased facilities for handling the eastern shipments are needed at Montreal.

Large Berry Crop In B.C.

Growers Expect Record Production If Weather Remains Favorable

Vancouver, B.C.—British Columbia's berry crops are likely to establish a new record for volume of production this year unless bad weather intervenes before harvest time, according to growers of the department of agriculture.

Recent rains on the coast have swelled the potential crop about twenty-five per cent. It is stated, as a result, growers will market far more berries than they were able to last year, both on the prairies and overseas, in the form of jam.

An Honorable Settlement

Ottawa.—The basis of settlement between the British Government and the British Trades Union Congress Council is both an honorable and comprehensive one, says the Hon. E. M. Duggan, secretary-treasurer of the Trades and Labor Congress of Canada, in commenting on the announcement that the general British strike had ceased.

Recovery From Strike

Britain Preparing to Pick Up the Pieces and Count the Cost

London.—Now, the nation that has borne with good humor and apertur fortitude the inconvenience and annoyance inevitable to any general stoppage of industry is preparing to pick up the pieces and count the cost. The country is being slowly resumed throughout the country. There are still many differences to be adjusted before industry can be in full swing again.

First, there is the question of the re-engagement of the men who have been notified that their places were filled. Then, too, groups in various industries have announced their willingness to resume work until the government emergency control is entirely removed.

But, on the whole, the nation has joyfully accepted the end of what has been characterized as one of the most orderly stoppages in the history of industrial disputes.

Decorated North Pole

Amundsen Drops Flags of Three Nations on Top of the World

Rome.—Judging by Commander Nobile's radiograms to Rome, the North Pole, after the Norwegian's landing, must have had something of the appearance of a birthday cake, except that flags, instead of candles, decorated it.

When Rikser-Larsen's observations indicated that they were directly above the top of the world, the great flag, the snows up and decorated close to the ice floor. A brilliant ray of sunlight cutting through the mist caused the ice to glisten like a mass of gems.

Amundsen dropped the Norwegian flag, Ellsworth the United States flag, Noble the Italian, and two other Italian flags, one for the Italian Aero Club and another for the city of Rome.

Ship Grain To Vancouver

Will Be No Difficulty in Handling Wheat Through Pacific Port

Vancouver.—A large amount of grain moving to the Pacific Coast this coming season will of course depend on the outcome of the crop in Alberta, of which indications are very favorable, but whether crop is a very heavy one or not, it is evident that there will be no difficulty at all in handling it on the railway from the start, said E. D. Cotterell, superintendent of transportation, western lines, Canadian Pacific Railway.

"Last season," said Mr. Cotterell, "there was some difficulty in handling the crop until we put the permit system in force. After our experience of last year, we shall operate under this plan right from the beginning."

SAYS EUROPE IS ON THE VERGE OF ANOTHER WAR

Berlin.—In launching a campaign for the establishment of a pan-European federation, the Austrian Count von Votho, announcing in the Vorwaerts Zeitung, that "Europe is on the verge of another war." The war menace, he declares, is greater than in 1914; the present European developments are to be viewed from his historical standpoint as the prelude to a new outbreak.

One day Europe will have placed before her the alternative of war of a general revolution as counter measure to a new outbreak and this means definitely the smashing of the present European system," says the Count.

The Count declares the Western Alliance-Lorraine problem has been permanently solved by the Locarno agreements, but says in its place at least a dozen new Alliance-Lorraine have cropped up in Eastern Europe, which are "located in the volcanic zone—responsible for all European wars since 1911."

He contended that at present the main safeguard against war is general poverty, which, however, is not considered insurmountable. The writer asserts that, Bessarabia represents the "principal fuse to the European powder barrel," involving conflicting policies of Rumania, Russia, France, Great Britain, Germany and Italy.

Still another menace, he says, threatens from Italy, "the objective of whose avowed imperialism and militarism still is uncertain, whether directed toward Africa, Asia, or Europe."

"Today," says Count von Coudenhove-Kalergi "any fanatic is capable of involving Europe in another war."

RESOURCES BILL FOR ALBERTA IS IN ABEYANCE

Ottawa.—The trouble which has been stirred up over the schools aspect of the matter, makes it doubtful if the bill to return to the province of Alberta its natural resources will be proceeded with this session.

The atmosphere which created Alberta into a province, provided a school land fund for educational purposes, and in this measure public and separate schools were recognized. The public lands are now being handed back to the provinces and, while it was not included in the original agreement, the government has on the order paper a resolution by way of amendment. With its legal verbiage clarified, the effect of the resolution is to continue, under provincial administration, the same system in regard to school lands that has prevailed in the last 20 years.

Objection has been raised on two grounds. One is that this clause is foreign to the natural resources question, the other is that it is nullified by the Imperial Parliament, as the legislation is intended to be, it might preclude future change by the province in its law in respect to education. On the other hand, it is contended that the clause provides for a joint committee but that, when dealing with school lands, it is well to preclude any misunderstanding. Hence the proposed declaration.

Premier Brownlee has had a number of consultations on the subject and views the matter as troublesome, especially in view of an agitation in certain circles at home and also because a provincial general election is impending. He is said to insist upon the proposed clause being cut out. The year's argument circles around the proposed, contemplates merely a continuation of a system that has a constitutional recognition and that, if the provincial premier objects, the legislation for return of the resources will not be proceeded with this session. In several respects it would be contentious.

Contract Campaign Started

Livestock Pool Will Concentrate On Districts Where Sentiment Is Favorable

Moose Jaw, The.—The Saskatchewan Livestock Pool is not ready to start its campaign for contract signers. It will accept invitations from any districts to send speakers and organizers, either where local livestock shipping associations already exist, or where there is no organization by a sentiment in favor of the pool marketing system, stated W. D. Mackay, president of the recently organized Saskatchewan Livestock Pool.

In the past two or three weeks the pool has been engaged in securing information as to the sentiment in various districts and the campaign for pool contract signers which will be carried on during next few weeks will be pressed in territory where it is found the sentiment in favor of the pool marketing system is strongest.

Don't grumble about your business. It is reported that a man went into a clothing store in a neighboring town to buy a suit of clothes. The merchant grumbled so much about how everything was going to the bewows that the would-be customer came to the conclusion that if times were so bad, he had better make the old suit do another season, and walked out of the store. If a merchant grumbles his patrons will grumble, and it is a disagreeable situation when everybody is grumbling.
